Tromleorkestret

The Fire-Breathing Music Machine

CHRISTIANIA • FOUNDED 2012 • TROMLEORKESTRET.COM

Tromleorkestret is two people and a homebuilt music machine. The Trio plays psychedelic barrel-organ music on self-constructed, mechanical, high-tech instruments. The performance is a celebration of man's ability to create machines that can perform actions that humans are not capable of, leading ideas to new heights. It is just as much a doomsday prophecy about the machines' inevitable takeover of human consciousness.

THE MACHINE

The machine is built by the two musicians. A never-ending project that has been developing for 14 years so far. It has a robotic slide bass, mechanical xylophone, drums and keyboard, a percussion instrument based on amplified springs and flamethrowers spewing fire in sync with the music. The sound is manipulated wirelessly by a pair of gloves, featuring real-time effects, ranging from reversers to granular spaces.

THE PERFORMANCE

The fusion of sound, light, pyrotechnics and movement creates a doorway into a psychedelic experience. The visual universe has references to steampunk while the music draws lines from krautrock, psychedelic jazz and experimental electronic music in an ever-evolving soundscape. The interaction between improvisational musicians and the robotic instruments blurs the barriers between man and machine.

Shows, People & Rider

SELECTED SHOWS

Fusion Festival, Germany	Jun 2025
Karrusel Festival, Denmark	Aug 2025
Frigjort Festival, Denmark	Aug 2025
Kultursalonerne Gisselfeld, Denmark	Aug 2024
Bascherdeis Festival, Italy	Aug 2024
Pumpehuset, Denmark	Sep 2023
Badesøen Festival, Denmark	Aug 2023
Stjerner over Farø, Denmark	Jul 2023
Amager Børnemusikfestival, Denmark	Feb 2023
ART by NIGHT, Denmark	Aug 2022
Kulturnatten x Reffen, Denmark	Oct 2019
Analogik + Tromleorkestret at Loppen, Denmark	Sep 2019

THE ENSEMBLE

Hjalte Bested Hjorth

INSTRUMENT DESIGN, COMPOSER & PERFORMER

A musician and composer with a background in robotics engineering, Hjalte is in charge of all the technical innovations and music composition for the project.

Sofie Hjorth Schausen

SPECIAL EFFECTS, VISUAL DESIGN & PERFORMER

Sofie has created the costumes and visual design of the project. In performance, she is mainly in control of live audio effects.

TECHNICAL & HOSPITALITY RIDER

POWER	Fully self-contained — no venue power needed for a standard show. Multi-day festivals: trailer parking + 220V to recharge batteries.
SOUND	Own onboard PA; stereo DI line-out available if the venue system is preferred.
FOOTPRINT	L130 × W120cm (W100cm with keyboard unmounted, remounted inside the venue) × H190cm. Weight ≈200kg.
ACCESS	Drivable path or crane to position. Rolls up/down gentle slopes; cannot be carried on stairs.
CATERING	Full catering incl. vegetarian option, and beverages with and without alcohol.
LODGING	Free accommodation for overnight bookings.
FEE	Scope-dependent — ask for a quote.
